EN CONVERSION BIO

Since the purchase in 2012, the Bouzignac family has been keen to perfect what Lady Nature has given it. Any chemical has disappeared from the vineyard treatments; Everything is treated in plants (boiled, herbal teas, ...). The floors have been reworked with horses and treated with organic matter to revive the root system of vines (aged 80 years old) and earth. In the cellar, the vinification is mining and followed with intensity, with a minimum of inputs. The harvest is manual and the grapes are sorted in whole berries before being transported in tank and self-voting barrels. From this meticulous and neat work, each year takes a typical and very personalized vintage. Who knows how to taste does not drink wine again but tastes secrets. "Salvador Dali"
