HAUTE VALEUR ENVIRONNEMENTALE

EN CONVERSION BIO

Family property belonging to the Claverie/Castaing family for 6 generations. The 10 ha estate is located on the hillsides of Saint Emilion; 3 people work there year-round. Family/Team are important terms to designate the structure, because each member reflects the thousand facets of the environment in which the field evolves. From the Vigne team to the sales team, to the owners, each is consulted and represents a part of Haut Veyrac. In our steps, we are certified HVE3 for this vintage and in biological label converts in 2023. This shows our commitment to good environmental practices. Finally, we seek to make a wine that makes sense, that is to say a quality, a requirement and which represents our terroir, the human, the material and which preserves the environment. We work in bio-protection, which allows us to respect the fruit and better extraction of the aromas.

Address
