PAYS-BAS
ROYAUME-UNI

Environmental certifications

HAUTE VALEUR ENVIRONNEMENTALE

Château Bel-Air came in June 2011 to complete the Dubard range of vineyards, a family of winegrowers present in the AOC Bergerac and Lalande de Pomerol. The label chosen by the Dubard family pays tribute to the worship of the old parish of Puisseguin for the Sacred Heart: it is the medallion of the Sacred Heart, present on the village church and in which was taken up theCurrency of the commune "Surgam and Ibo", in French "I will get up and I will go". The AOC Puis-Emilion AOC floors are distinguished from those of other satellites in Saint-Emilion by a greater presence of limestone.The 8.34 ha of the vineyard of Château Bel-Air, remarkably concentrated around operating buildings, illustrate this clay-limestone terroir producing full-wines and deep wines.Château Bel Air is level 3 -level high environmental value.
