## — Environmental certifications

HAUTE VALEUR ENVIRONNEMENTALE

Planted on a soil of silts and silicas on a limestone basement, the vineyard of Château Fournay is made up of 80 % Merlot, 20 % Cabernet Franc. Vines have an average age of 35. We have a size method that allows the vine to develop its natural defenses, resulting in a significant drop in treatments hitherto used. In addition, we note an important development of plant variety and insects in our vineyard. We only use organic fertilizers. Since 2019, the property has been certified HVE level 3, for its respect for the environment. Château Fournay is vinified in cement tanks coated with epoxy resin. Each of them has its own temperature control system and in parallel with its own micro-oxygenation station. Breeding in barrels for 12 months. We make sure to develop fruity, balanced and elegant wines with each vintage.

## Address

CHÂTEAU FOURNEY  
CHATEAU FOURNEY  
33330 SAINT PEY D'ARMENS  
Phone : 05 57 56 10 20
