HAUTE VALEUR ENVIRONNEMENTALE

Our agroecological approach and bio-regulation allow us to cultivate our vines and vinify with respect for the terroir. With the expertise of microbiologist Christophe Gerland, we amaze this sulfite-free cuvée added by observing our indigenous yeasts and bacteria for precise control of fermentations. The result: a pure, fruity and digestible wine, with bright aromas of red and black fruits, a flexible and fresh mouth, revealing all the expression of our Saint-Emilion.
