DEMETER

HAUTE VALEUR ENVIRONNEMENTALE

At the Château l'Etampe has been developed since 2016, very finesse wines since 2016. Structured, spicy and intense wines with excellent childcare potential. As soon as this 2 hectares are acquired, the Teycheney family started conversion to organic farming and biodynamic conduct. Vintage after vintage, wines gain purity and precision. The expression of the terroir is remarkable. The floors composed of Sablo-Siliceux alluviums offer precocity tempered by the Taillas. This small stream bordered by trees brings freshness on the surface, in the heart of summer while the ancient sands capture heat, ensuring a key role in the mineral balance and the water diet of the vine. Throughout the year, the vines are subject to a very special care to reveal the best potential of the Merlot and Cabernet Franc grape varieties. In the cellar, the vinification and breeding work gives priority to the structure and the aromatic expression.
