The vineyard of a single piece on the hillsides of the clay-limestone plateau offers by its different orientations configuration in a sort of circus cut in limestone. All the floors covering the mother rock are extraordinary variety.From pure limestone to clay-limestone, without forgetting the marls and blue and red clays. The remarkable architectural cellar of the La Croizille castle meets all the technical requirements and includes a receptive room overlooking the Combe, highlighting the exceptional landscape. A varied offer of services doubly rewarded by the Best of Wine Tourism competition, including the international golden trophy, demonstrates the family's opening policy.
