AGRICULTURE BIOLOGIQUE

Convert yourself as a winemaker, instructions for use. Leaving a professional life to live a dream? That's what we did. At 50, we decided to leave Provence to buy this small plot of vines. If our entourage takes us for patients, it is in 2015 that this dream takes shape. Since then we have produced a wine in Saint Emilion Grand Cru appellation. Also, to build a life project, it is essential to go through training, in order to acquire the basics of viticulture and confront the reality of the profession, to get rid of fantasies. The work is physically hard and we spend three quarters of his time in the vineyard. Sometimes you have to have a well-hung morale! We note that the corkscrew serves less than the pruning shear. As the objective was to make your own wine, we are the only ones to work at the cellar and to vinify our wines. "We are proud to get there ..."
