Environmental certifications

HAUTE VALEUR ENVIRONNEMENTALE

Château Moulin de Grenet is a vintage of the Roskam-Brunot family which is located 2.5km north of the village of Lussac on the limestone plateau. The wind, the sun and the limestone offer the wines of the domain a generous character, with a balanced heart of freshness and a mineral point.It is also the will of the family to produce a local identity and in finesse, whether it is a pleasure to share. Its 4.5 hectare vineyard consists of 5 vineyards, in limestone and clay-limestone, giving identity to the wines produced there.The Merlot, a predilection grape of the St Emilionais, takes its letters of nobility, associated with the Cabernet Franc which brings a nuance of fruit, mouth and a touch of spices.
