TERRA VITIS

HAUTE VALEUR ENVIRONNEMENTALE

Located south of the appellation, we carefully cultivate 26 hectares of Saint-Emilion Grand Cru and 4 hectares of Bordeaux for the production of 4 different wines. For several years we have also been keen to share our passion and make visitors around the world discover our methods. For this we suggest you come directly to the property and to see behind the scenes of our work: from the reception of harvest to the modern stainless steel cuvier, from the chai to the traditional concrete cuvier in Of course passing through the vine. During your visit an experienced guide will be there to give you all the explanations and draw the way from grape to the grape step by step bottle. Before leaving you will finally discover the tasting room with panoramic views of the vineyard to taste a selection of our wines.
