HAUTE VALEUR ENVIRONNEMENTALE

Château Jacques Blanc is located near the medieval village of Saint-Etienne de Lisse, one of the eight communes which constituted the jurisdiction of Saint-Emilion since 1289. Already at that time, the jurisdiction was well known for the production of excellent wines. Its unique terroir in combination with the climate, characterized by hot summers and relatively mild winters, provide optimal conditions for the production of high quality red wines. As is still the case today.
