AGRICULTURE BIOLOGIQUE

LA BOISSERIE is a 32.12 ares garden that my father Louis Boissérie cultivated with heart until 2014, the year of his death. It is therefore in his wake that I want to continue this love of the land and of wine. In organic farming, vinified in amphorae, in the greatest tradition. A confidential production to which I bring care and delicacy, like those who passed on this garden of Saint Emilion to me.
