HAUTE VALEUR ENVIRONNEMENTALE

AREA

In 2008, Thomas Pêtre chose a simple plot on the heights of the Saint-Emilion appellation, immediately seduced by its location and the potential of its terroir. With 2.38 ha, the vineyard allows knowledge vine by vine and makes "haute couture" work possible. Each gesture is carried out with perseverance and rigor. Today Château de Set shows that it is not the surface area of the vineyard that makes a great wine but the terroir and the uncompromising work that is accomplished there. Relentlessly involved in this family project, Thomas Pêtre is the architect of a radical transformation of the estate. With humility and determination, he produces wines marked by the brilliance of the fruit, revealing the potential of a unique terroir.
