Remarkably well located, the Château Tour Baladoz occupies a culmination of the appellation and offers a superb panoramic view. We are on the largest limestone terroirs of the appellation, 30 to 50 meters of cultivable land based on the mother rock and consequently, the wine perfectly expresses all this minerality. The Schepper family bought the estate in 1950 and acquired the neighbor, the La Croizille castle in 1996. The family has developed an oenotourism offer combining the visit of the two castles since 2015. The property has a shop with all the wines of theFamily and elsewhere, a panoramic terrace for its wine bar and an air of shaded picnic. The seniority of the property, the quality of the terroir and control of each detail, from the vine to the bottle, make it possible to ensure the great nobility of the wines of the castle Tour Baladoz by the family and its team for three generations.
